DETAILED ACTION

The amendment and remarks filed 12/18/03 have been acknowledged and entered.

The rejection under 35 U.S.C. 112, second paragraph stated in paper No. 26 has been withdrawn in view of applicant's remark.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 98-100, 102-106, and 119-130 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohmi et al. in combination with JP'927.

This rejection stated in paper No. 26 is maintained.

Response to Arguments

3. Applicant's arguments filed 12/18/03 have been fully considered but they are not persuasive. Applicant's argument that Ohmi et al. specifically teaches away from spraying solution onto a semiconductor article. Applicant's argument is unpersuasive because Ohmi et al. teach "it is preferable to spray a chemical solution onto both the surface and the back

of an object to be cleaned", see col. 7, lines 35-38. Feeding the cleaning solution would inherently include spraying.

4. Applicant's argument with respect to JP'927 is unpersuasive because Ohmi et al. and JP'927 teach using spraying method, therefore it is proper to combine these references.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
